

As a long-term resident of our community for the past 17 years, I have a deep understanding of the challenges and aspirations of local residents. Having actively engaged with neighbours, community groups, and various stakeholders, I am committed to being a true representative voice on the County Council.

Through my work and ongoing conversations with residents, I've seen firsthand the issues that matter most – from infrastructure and transport to housing, public services, and the pressing need for transparency and accountability. I am passionate about ensuring the council not only listens but also acts on the genuine concerns of our community. That's why I have consistently pushed for improved mechanisms for council consultation, aiming to make residents' voices central to decision-making.

As your candidate, I would bring a dedicated, responsive, and solutions-focused approach to the council, advocating for fairer representation and more inclusive governance. Together, we can drive positive change, fostering a community where residents feel valued and empowered. I am ready to be that bridge between the people and the council, and I would be honoured to have your support as we work towards a better future for our community in 2025.

Kind regards Gary Blundell – for Costessey Division Norfolk County Council 2025
